Notes:

Strategy returns are based on month-end hard close exit prices with distributions reinvested. From 1 July 2006, performance is net of all fees and gross of tax. The fee charged within the Strategy increased by the amount of the Investment Service fee. Prior to 1 July 2006, the Investment Service fee was charged outside of the Strategy and not included in performance reporting.

A 50% currency hedge applies to the cumulative International Shares and International Smaller Companies exposure of each Strategy, excluding Diversified Investment Strategy No 5. For Diversified Investment Strategy No 5 a 50% currency hedge applies to the International Shares exposure.

Past performance should not be taken as an indication of future performance of the Strategies or a guarantee of return. All figures have been rounded to one decimal place.

ipac Diversified Investment Strategies

February 2009

Notes:

Performance based on ipac Diversified Investment Strategies No. 2 & 5.

Manager performance is calculated based on month-end hard close valuations (except for ipac Diversified Alpha Fund that is calculated using month end soft close valuations) using a time-weighted return methodology and are gross of fees and tax. Hedged manager returns are based on month-end hard close exit prices for the Hedged trusts, gross of management fees, ongoing fees and expenses, assume distributions are reinvested and tax is not deducted. External unit trust returns are based on month-end hard close unit prices by the manager and the Alternative Assets Sector return is calculated using soft close month end exit prices.

Market return is the return of the nominated market index for each asset class.

BGI Index (AFI, AP & Intl Share – Hedged), and Bernstein Value (Aust Shares), are only available in Diversified Investment Strategy No. 5.

The nominated market index for International Smaller Companies is the S&P/Citigroup World <US\$1.5bn Cap Range Index (net dividends reinvested) in AUD unhedged.

The nominated market index for Alternative Assets is the UBSA Bank Bill Index.

During October 2008 ipac transitioned the active component of Australian Property into the Multi-Manager building block (A-REIT Active Multi-Manager Trust) featuring ipac's two managers in this sector – SG Hiscock (50%) and Legg Mason Asset Management (50%). The transition occurred at no cost to investors as no trading of underlying assets was necessary.

The International Shares Index allocation is invested in BGI Fission and Vanguard Investments. ipac has appointed two managers within the International Shares Index as there is limited capacity with the BGI Fission Fund.
