The fee charged within the Strategy increased by the amount of the Investment Service fee. Prior to 1 July 2006, the Investment Service fee was charged outside of the Strategy and not included in performance reporting.

A 50% currency hedge applies to the cumulative International Shares and Global Smaller Companies exposure of each Strategy, excluding Diversified Investment Strategy No. 5. For Diversified Investment Strategy No. 5 a 50% currency hedge applies to the International Shares exposure.

Past performance should not be taken as an indication of future performance of the Strategies or a guarantee of return. All figures have been rounded to one decimal place.
